

Engineered Handling Solutions Since 1869

Move  
**Smarter!**

## Move Smarter!

Since 1869, The David Round Company has made innovative material handling products to make industry more productive and safer. We can help you move smarter with ergonomic solutions. With engineering and manufacturing facilities in Cleveland, Ohio, we can provide an American-made answer to your lifting or handling challenge.

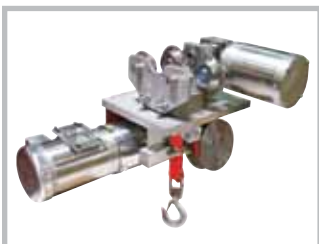

### Chain Hoists

- Manual, electric or air powered
- Stainless steel or conventional
- Explosion proof available
- Variable speed versions available
- Capacities up to 2 tons for stainless steel; 10 tons for conventional carbon steel

### Wire Rope Hoists

- Electric or air powered
- Stainless steel or standard construction
- Low headroom designs available
- Capacities up to 30 tons

### Strap Hoists

- Clean room (stainless steel) or standard construction
- Polypropylene lifting strap
- Capacities up to 4000 pounds

### Winches

- Grooved drum, custom and general purpose styles
- Capacities from 150 to 10,000 pounds
- Conveyor/stacker styles
- Marine/outdoor styles
- Manual styles

### Jib Cranes and Jib Crane Motorization

- Free-standing (floor mount)
- Wall-mount
- Motorized booms – highly ergonomic answer to potential back injuries
- Motorization kits for retrofit use
- Davit styles available
- Capacities up to 10,000 pounds

### Tractor Drives

- Flexible - we can provide drives for any size beam or rail
- Up to 2 HP...the highest available anywhere
- Standard, free-wheeling, enclosed track, air powered and high speed versions available

### Capstans

- Horizontal and vertical styles
- Sealed components to withstand outdoor use
- Highly customizable

## Explosion Proof Hoists & Winches

- Chain or wire rope designs
- Custom styles available

## Sheaves and Chains

- Hand wheel
- Load wheel
- Idler wheel
- Hand chain and load chain
- Capacities up to 5 tons

## Move Smarter with Stainless Steel and Clean Room Products

We do stainless! And we do it all day long. Nearly all of our products are available unpainted in 304 or 316, many of them as standard items, including stainless steel cranes, hoists and winches.

Whether you have a pharmaceutical, food processing, electronic or other clean room application that demands corrosion-resistant or wash-down duty, call us for an enthusiastic response.

## Custom Engineered Lifting Equipment

If you have a tough lifting or material handling challenge, David Round should be your first call. Unlike many other equipment makers, we thrive on special requests.

Ask us to design and build an engineered hoist, custom winch, crane or other product to your specific environment or restrictions. Whether it is a difficult footprint, ultra low headroom or particularly nasty operating conditions, we will listen and respond with advice from well-trained engineers.

Call us for:

- stainless steel construction
- extra high capacity
- clearance limitations
- extra long reach
- explosion proof designs
- high line speeds
- special safety features

## Floor Cranes, Lift Trucks and Towable Cranes

Ruger Industries, a division of The David Round Company, manufactures heavy duty lifting products. Don't confuse a Ruger with a lightweight import! Everything about these products is heavyweight and built for continuous industrial use.

### Manual Push Hydraulic Floor Cranes

- More versatile than jib cranes
- More mobile than gantry cranes
- Raise and lower heavy loads via hand-powered hydraulics
- More productive and safer than lift trucks
- Straddle and reverse styles available
- Capacities up to 6000 pounds

### Manual Reverse Style Floor Cranes

- Counter balanced design
- Avoids obstacles that could be in way of straddle legs
- Easy access to wide loads

### Full Power Floor Cranes

- Electrically-actuated hydraulics
- Raise and lower with precision
- Greater speed and productivity than manual models
- Straddle and reverse styles available
- Capacities up to 6000 pounds

### Manual Push Lift Trucks

- Great for small shops, tight work spaces
- More economical than powered lift trucks
- Capacities up to 2500 pounds

### Towable Cranes

- Hitch-mounted, towable at highway speeds
- Roll easily on uneven surfaces
- Segmented hydraulic boom extends up to 28'
- Power hoist
- Up to 2000 pounds capacity

### Custom Engineered Products

- We welcome specialized requests!
- Call to speak with one of our knowledgeable engineers
